♥ Familyfirst

Stay in the loop about your loved one
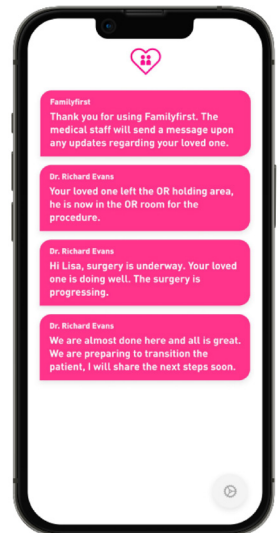

Free, easy, no personal information required

---

1 Download Familyfirst on your iOS or Android device.

2 On the first screen of the app, scan or enter the token that the staff provides you.

Staff may provide the token in person or via a text message, so keep an eye out for a text from Familyfirst.

3 That's it! You can now receive updates from the medical staff, and browse informational content.
